To the Users of This Report

Re: September 30, 2003 Monthly Financial Information

Please find attached the Report of General Fund Financial Information for the month ending September 30, 2003. This cover letter is intended to provide comment on the attached tables of general fund financial information. The user's attention is specifically drawn to the following:

- **Operating Notes.** The State has sold \$400,000,000 of operating notes that were delivered on September 18th. The general fund cash flow projections reflect this issuance of operating notes.
- **Projected June 30, 2004 Cash Balance – Negative \$120 Million.** The State is projecting a negative ending cash balance for FY04. Ending a fiscal year with a negative cash balance is allowed under Wisconsin Statutes, which provides certain remedies, such as interfund borrowing, to deal with periods when the balance is negative. The interfund borrowing limit for FY04 is \$542 million with an additional \$325 million for a period of up to 30 days, which totals approximately \$867 million.
- **Adjustments to Cash Flow Projections.** Changes were made last month to the general fund cash flow projections to better reflect end-of-month electronic fund transfers, particularly those related to individual income tax receipts. Because these changes were made starting in September 2003, the July and August 2003 estimates could not be changed. Since the timing of end-of-month electronic fund transfers impacted August and September 2003, the changes to the cash flow projections include an increase in September 2003 but could not include any decrease in August 2003. As a result, the variances that are highlighted in the attached tables are adjusted by \$63 million to show the result if the August 2003 estimate were also changed.

Sincerely,

/s/ FRANK R. HOADLEY

Prepared by the Wisconsin Department of Administration

Prepared on October 28, 2003

The following tables of general fund financial information are provided with respect to securities issued by the State of Wisconsin. The information may be material to an investment decision in the securities, although the presence of information here does not imply the State of Wisconsin has made a determination of its materiality.

THE PROJECTIONS ALSO REFLECT THE REVENUE ESTIMATES RELEASED BY THE LEGISLATIVE FISCAL BUREAU ON JANUARY 23, 2003. ADJUSTMENTS HAVE BEEN MADE TO THE GENERAL FUND CASH FLOW PROJECTIONS TO BETTER REFLECT END-OF-MONTH ELECTRONIC FUND TRANSFERS.

Cautionary Information

Users of this information should be cautioned about several points:
--

The general fund financial information in this document has been prepared using what is believed to be the best available data for these purposes. The tables in this document have been prepared using the same procedures used to prepare similar information for the State of Wisconsin Continuing Disclosure Annual Report, Official Statements prepared for specific securities, or reports filed in conjunction with various securities. This information is, however, preliminary in nature and subject to change.

- This information is unaudited and is not a “financial statement.” None of the data presented here has been subjected to customary fiscal period closing procedures or the procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments.
- This information only speaks as of the date on which it was prepared.
- Statements of information for dates before the date this information is prepared will almost certainly be subject to restatement and revision. Information classified as “actual”, and any difference from any prior estimate, does not signify a change to official estimates. Any official revenue or expenditure re-estimates that do occur will be separately identified, and if material, appropriately noticed.
- The information does not intend to reflect the State’s ending budgetary balance for FY03. On October 10, 2003, the State did release its Annual Fiscal Report that includes the ending budgetary-balance for FY03.
- Projections of results for dates after the date this information is prepared are forward looking. Actual results will almost certainly differ.
 - Projections of general fund cash flow for FY04 reflect the 2003-05 biennial budget as signed into law with some partial vetoes by Governor Doyle on July 24, 2003 (2003 Wisconsin Act 33).
 - Projections reflect the revenue estimates released on January 23, 2003 by the Legislative Fiscal Bureau. Updates to non-tax receipt categories were also made at that time to reflect latest available information. It is important to note that cash flow projections are expressed on a *cash basis* while the revenue estimates released by the Legislative Fiscal Bureau are expressed on a *budgetary basis* and net of any refunds.
 - Projections are not adjusted to reflect actual revenues and expenditures and routine variability in the timing of receipts and disbursements, but may be adjusted to reflect unique events. Starting with projections in September, adjustments have been made to the general fund cash flow projections to better reflect end-of-month electronic fund transfers, particularly those related to individual income tax receipts.
 - Projections of remaining fiscal year cash flow may be adjusted when necessary to reflect unforeseen events or additional revised forecasts of the general fund condition statement.
- Data in these tables of financial information are subject to revision and reclassification for prior periods. This is particularly true for revenue data, where proper classification depends on tax returns which are received and processed significantly after the tax payments are received through electronic transfers.
- Some data is presented on a cash basis of accounting while other data is presented on a budgetary or agency recorded basis. Users should not compare data that is presented with different basis of accounting.
- Comparison of monthly general fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- The State of Wisconsin is not obligated to provide this information or make it available on its website.
- None of the information in these tables of financial information is required by the State of Wisconsin’s continuing disclosure undertakings pursuant to SEC rule 15c2-12.
 - This information is not, and does not replace, a notice of a material event required by SEC rule 15c2-12.
 - This information is not, and does not replace, the annual financial information required by SEC rule 15c2-12.

(a) Projections reflect the 2003-05 biennial budget bill that Governor Doyle signed into law with some partial vetoes on July 24, 2003 (2003 Wisconsin Act 33). The projections also reflect the revenue estimates released by the Legislative Fiscal Bureau on January 23, 2003 and adjustments made starting in September to better reflect end-of-month electronic fund transfers. While the projections are based on budgetary assumptions, they are presented on a cash basis and not a budgetary basis. Projections do not include interfund borrowings.

(b) The General Fund cash balances presented in this schedule are not based on Generally Accepted Accounting Principles (GAAP). The General Fund includes funds designated for operations and capital purposes of certain proprietary programs of the State's Universities. Receipts and disbursements of such funds for other purposes are reflected in the cash flow. A use of the designated funds for purposes other than the proprietary programs is, in effect, a borrowing of such funds. Therefore, at any time that the balance in the General Fund is less than the balance of such designated funds, the State is obligated to replenish the designated funds to the extent of the shortfall. Other designated funds are expected to range from \$150 to \$300 million during the 2003-04 fiscal year. In addition, the General Fund is the depository for several escrow accounts pursuant to court orders or Federal rulings. These funds are expected to average approximately \$50 million during the 2003-04 fiscal year.

(c) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds (up to 5% of the general-purpose revenue appropriations then in effect) to the General Fund. This amount is approximately \$54.2 million for the 2003-04 fiscal year. In addition, the Secretary of Administration may also temporarily reallocate an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$32.5 million for the 2003-04 fiscal year) for a period of up to 30 days. If the amount of interfund borrowing available to the General Fund is not sufficient, the Secretary of Administration is authorized to prorate and defer certain payments.

(d) The July Individual Income Tax Receipts and Non-Tax Receipts for Other & Transfers have been restated due to a subsequent reporting reclassification by the Department of Revenue.

(e) Includes \$400 million in operating note proceeds received in September, 2003 and impoundment payments due on February 27, March 31, April 30, and May 28, 2004. The February 27, 2004 impoundment payment excludes the premium deposited on September 18, 2003 into the operating note redemption fund.

- (a) Please refer to the cautionary statements contained on page 2 of this document. The cautionary statements are an integral part of this table. None of the data presented here has been subjected to customary fiscal period closing procedures or other procedures used in the preparation of a financial statement, including verification, reconciliation, and identified adjustments. In addition, comparison of monthly general fund financial information has many inherent problems. Unforeseen events (including even a change in weather conditions) or variations from underlying assumptions may cause a decrease in receipts or an increase in disbursements from those projected for a given month.
- (b) Estimates include assumptions from the 2003-05 biennial budget bill, as signed into law with some partial vetoes by Governor Doyle on July 24, 2003 (2003 Wisconsin Act 33) but are presented on a cash basis and not a budgetary basis. The projections also reflect the revenue estimates released by the Legislative Fiscal Bureau on January 23, 2003.
- (c) Changes were made, after the beginning of the fiscal year, to the estimates of receipts starting in September 2003. These changes were made to better reflect end-of-month electronic fund transfers. Because the changes were made starting in September 2003, the July and August 2003 estimates could not be changed. The changes to the estimates of receipts include an increase in September 2003 but could not include any decrease in August 2003. As a result, the variance has been adjusted by \$63 million to show the result if the August 2003 estimate were also changed.
- (d) Operating notes were not issued in FY03 but were issued on September 18th for FY04.

- ^(a) The General Fund balances presented in this table are not based on Generally Accepted Accounting Principles (GAAP).
- ^(b) The monthly receipt and disbursement projections for October 1, 2003 through June 30, 2004 are based on the revenue estimates released by the Legislative Fiscal Bureau on January 23, 2003 and the budget for the 2003-05 biennium as signed into law with some partial vetoes by Governor Doyle on July 24, 2003 (2003 Wisconsin Act 33). Adjustments have been made to the cash flow projections to better reflect end-of-month electronic fund transfers.
- ^(c) The amounts shown in September 2001 and September 2003 include receipts from the issuance of operating notes and amounts shown in February–May 2002 and February–May 2004 include disbursements for impoundment payments required in connection with the issuance of operating notes. No operating notes were issued for the 2002-03 fiscal year.
- ^(d) The Statutes provide certain administrative remedies to deal with periods when the General Fund is in a negative cash position. The Secretary of Administration may temporarily reallocate cash in other funds (up to 5% of the general-purpose revenue appropriations then in effect) to the General Fund. This amount is approximately \$542 million for FY04. In addition, the Secretary of Administration may also temporarily reallocate an additional amount up to 3% of the general-purpose revenue appropriations then in effect (approximately \$325 million for FY04) for a period of up to 30 days. If the amount of interfund borrowing available to the general fund is not sufficient, the Secretary of Administration is authorized to prorate and defer certain payments. See [“Cash Balances In Funds Available For Interfund Borrowing”](#).
